

Dr. Heidi Wroebel, DC

## Philosophical Agreement- Understanding Our Service

Welcome to our Office! Congratulations on taking a big step along your personal path of healing and increased life expression. It is important that you understand our unique approach to healing & wellness, and for both the individual and the chiropractor to be working towards the same objective.

In this office, chiropractic **adjustments/entrainments** are delivered to free up Life Force, allowing every individual, whether a newborn, an athlete, or a grandparent to express more health. **Health** is defined as a state of optimal physical, mental, social well-being, not merely the absence of disease or infirmity. **Adjustments** are specific applications of forces delivered to facilitate the body’s correction of subluxations. **Subluxations** are patterns of tension stored in the body causing an alteration of nerve function and interference to the transmission of mental impulses and Innate Intelligence or Life Force.

Inside of us all, exists a Life Force that sustains us from conception until our last breath. It animates, coordinates, repairs, renews, empowers, and heals us. The Nervous System (our “Innernet”) coordinates this intelligence, and is our link between our inner and outer world. The Nervous System consists of the brain, spinal chord, nerves, and a dazzling array of neurotransmitters. By far, this is the most efficient, specialized, sophisticated, complex, and delicate biological information highway known to humanity. Not only does the Nervous System control every organ and body function, it also controls emotions, creativity, and performance. A free flow in communication of this system enhances one’s ability to express, to develop, and to experience life fully. Well-being, increased performance, greater personal expression, and general improvement are the natural byproducts.

Specific chiropractic adjustments deepen everyone’s potential to heal biologically and at the core. In some, physical, emotional, mental, or spiritual challenges may clear up quickly. In others, the process is slower, and in some it appears partial or not at all. Yet everyone will benefit from a properly functioning nervous system and greater life expression. Healing is a non-linear path, which means that one might experience ups and downs during a course of chiropractic care. This might include the experience of emotions, soreness, fatigue, and sensation awareness as subluxations are released and the body finds a new alignment. It also might mean greater energy, rest, ease, creativity, and connectivity.

Chiropractic is not a substitute, an alternative or preventative form of medicine. Chiropractic specializes in the expression of life, wellness, healing and well-being, whereas medicine specializes in the diagnosis and treatment of symptoms, sickness, and disease. It is not Dr. Heidi Wroebel’s goal or intention to diagnose, treat, or attempt to cure any physical, mental, or emotional ailments. The only diagnosis in this office is that of subluxations. However, if during the course of chiropractic care, non-chiropractic or unusual findings are encountered, these will brought to your attention. If you desire advice, diagnosis, or treatment for those findings, the chiropractor will recommend that you seek the services of the appropriate health care provider.

I (We), \_\_\_\_\_ & \_\_\_\_\_ the undersigned, have completely read and understood the above statement and choose for ourselves and those family members listed below to be served by Dr. Heidi Wroebel in agreement with the above scope of practice.
