Most patients that come to our office have one of two objectives in mind concerning their health care. Some patients come for symptomatic relief of pain or discomfort (Relief Care). Others are interested in having the cause of the problem as well as the symptoms corrected and relieved (Corrective Care). The doctor will weigh your needs and desires when recommending your treatment program. Please check the type of care desired so that we may be guided by your wishes whenever possible.

Relief Care
Relief Care is that care necessary to get rid of your symptoms or pain, but not the cause of it. It is the same as drying a floor that was getting wet from a leak, but not fixing the leak.

Corrective Care
Corrective Care differs from relief care in that its goal is to get rid of the symptoms or pain while correcting the cause of the problem. Corrective care varies in length of time, but is more lasting.

Check here if you want the doctor to select the type of care appropriate for your condition.

METHOD OF PAYMENT

Cash Check Credit/Debit

Our policy requires payment in full for all services rendered at the time of visit, unless other arrangements have been made with the office. I understand the above information and guarantee this form was completed correctly and to the best of my knowledge and I understand it is my responsibility to inform this office of any changes in my medical status.
